

## Assets with Positive ESG Attributes

Asset Class	Investment Manager	Asset Name	Location	Description of positive ESG attributes (refer to descriptions of some of the acronyms at the end of this document)
	ISPT	One National Circuit	1 National Circuit, Barton 2600	5 star NABERS Energy Rating; 5.5 star NABERS Indoor Environment Rating
		1 Julius Avenue	1 Julius Avenue, North Ryde 2113	5 star NABERS Energy Rating
		1 William Street	1 William Street, Brisbane	5.5 star NABERS Energy Rating; 6 star Green Star - Design & As Built; 6-Star Green Star performance
		100 Creek Street	100 Creek Street, Brisbane 4000	5 star NABERS Indoor Environment Rating
		100 Pacific Highway	100 Pacific Highway, North Sydney 2055	5 star NABERS Energy Rating; 5.5 star NABERS Indoor Environment Rating
		100 St Georges Terrace	100 St Georges Terrace, Perth 6000	5.5 star NABERS Energy Rating; 6 star NABERS Indoor Environment Rating
		18 Marcus Clarke Street	18 Marcus Clarke Street, Canberra 2601	5 star NABERS Indoor Environment Rating
		345 George Street	345 George Street, Sydney 2000	5 star NABERS Energy Rating; 5 star NABERS Indoor Environment Rating
		3-5 National Circuit	3-5 National Circuit, Barton 2600	5.5 star NABERS Energy Rating; 6 star NABERS Indoor Environment Rating
		363 George Street	363 George Street, Sydney 2000	5 star NABERS Energy Rating
		4 National Circuit	4 National Circuit, Barton 2600	6 star NABERS Indoor Environment Rating; 5 star Green Star - Design & As Built; CAF certified (3-Star Standard)
		447 Collins Street	447 Collins Street, Melbourne	Platinum level WELL Precertification
		50 Lonsdale Street	50 Lonsdale Street, Melbourne 3000	5.5 star NABERS Energy Rating; 5 star NABERS Indoor Environment Rating; 5-star Green Star - Performance; CAF certified (3-Star Standard)
		500 Bourke Street	500 Bourke Street, Melbourne 3000	5 star NABERS Energy Rating; 6 star NABERS Indoor Environment Rating; 5 star Green Star - Design & As Built
		7 London Circuit	7 London Circuit, Canberra 2601	5 star NABERS Energy Rating; 5.5 star NABERS Indoor Environment Rating
		Casselden	2 Lonsdale Street, Melbourne 3000	5.5 star NABERS Indoor Environment Rating; CAF certified (3-Star Standard)
		Defence Plaza	270 Pitt Street, Sydney 2000	5 star NABERS Energy Rating
		Green Square North Tower	515 St Pauls Terrace, Fortitude Valley 4006	5 star NABERS Energy Rating; 6 star Green Star - Design & As Built
		Kellyville Village	90 Wrights Road, Kellyville, NSW, 2155	CAF certified (3-Star Standard)
		Liberty Place	161 Castlereagh Street, Sydney 2000	5 star NABERS Energy Rating; 6 star Green Star - Design & As Built
		Midtown Plaza	246 Bourke Street, Melbourne 3000	5.5 star NABERS Indoor Environment Rating
		Robert Marsden Hope Building	2 National Circuit, Barton 2600	5 star Green Star - Design & As Built
		Southgate Centre	2 Riverside Quay, Southbank	5 star NABERS Energy Rating
		Sydney Central	477 Pitt Street, Sydney 2000	5.5 star NABERS Energy Rating; 5.5 star NABERS Water
		The Barrington	10 Smith Street, Parramatta 2150	5 star NABERS Energy Rating; 5 star NABERS Indoor Environment Rating
		The Ponds Shopping Centre	CornerThe Ponds Boulevard and Riverbank Drive	6 star Green Star - Design & As Built
		Wintergarden Shopping Centre	171-209 Queen Street, Brisbane	5 star Green Star - Design & As Built; CAF certified (3-Star Standard)
		CP2	66 Eagle St, Brisbane	NABERS Energy rating of 4.5 Star. NABERS Water rating of 4 Star. 6 Star Green Star Performance.
		1 Farrer Place	1 Farrer Place, Sydney	NABERS Energy rating of 4.5 Star.
		1 O'Connell St	1 O'Connell Street, Sydney	NABERS Energy rating of 5 Star. NABERS Water rating of 4 Star. 6 Star Green Star Performance.
		10 Spring St	10 Spring St, Sydney	NABERS Energy rating of 4.5 Star.
		16 Spring St	16 Spring St, Sydney	NABERS Energy rating of 4 Star.
		36 Honeycomb Drive	36 Honeycomb Drive, Eastern Creek	5 Star Green Star Design/As-Built rating.
	485 La Trobe St	485 La Trobe St, Melbourne	NABERS Energy rating of 4.5 Star. NABERS Water rating of 4 Star. 5 Star Green Star Performance. 4 Star Green Star Design/As-Built rating.	
	80 Flinders St Adelaide	80 Flinders St Adelaide	NABERS Energy rating of 4.5 Star. 5 Star Green Star Performance. 5 Star Green Star Design/As-Built rating.	
	Alan Woods Building	Alan Woods Building, Canberra	NABERS Energy rating of 5 Star. NABERS Water rating of 4 Star. 6 Star Green Star Performance.	
	Cairns Central	Corner Mcleod and Spence Street, Cairns	NABERS Energy rating of 4.5 Star.	
	Caneland Central	Corner Victoria Street and Mangrove Road, Mackay	NABERS Energy rating of 4.5 Star. 4 Star Green Star Design/As-Built rating.	
	Craigieburn Central	340 Craigieburn Road, Craigieburn	NABERS Energy rating of 4 Star. NABERS Water rating of 5 Star. 4 Star Green Star Design/As-Built rating.	
	CS Square Shopping Centre	29-35 Lake Street, Caroline Springs	NABERS Water rating of 4 Star. 4 Star Green Star Design/As-Built rating.	

## Assets with Positive ESG Attributes

	Bankwest Place	300 Murray Street, Perth	NABERS Energy Rating 5	
	Brisbane Square	266 George Street, Brisbane	NABERS Energy Rating 4	
	Chullora Logistics Park - Lion Dairy & Drink	2 Hume Highway, Chullora, NSW	4 star Green Star Design (certified) and As Built (underway); 600kW rooftop solar system	

## Assets with Positive ESG Attributes

Asset Class	Investment Manager	Asset Name	Location	Description of positive ESG attributes (refer to descriptions of some of the acronyms at the end of this document)
	Charter Hall	Dandenong Distribution Centre - Woolwo	225 Glasscocks Road, Dandenong S	1,000 kW rooftop solar system; water efficient fixtures and landscaping; 40 bicycle parks; Winner - Kone Award for Development Innovation 2019.
		East Arm Port Distribution Facility	16 Dawson Street, East Arm, NT	100 kW rooftop solar system
		M5/M7 Logistics Park - GWA	1 Melito Court, Prestons, NSW	5 star Green Star As Built; 250 kW rooftop solar system; Pilot site for new landscaping strategy.
		n/a	9 Castlereagh Street, Sydney	NABERS Energy Rating 4.5
		n/a	333 George Street, Sydney	NABERS Energy Rating 5; Green Star Design 5 star, As-Built 5 Star
		n/a	231 Elizabeth St, Sydney	NABERS Energy Rating 5.5, Water Rating 4
		n/a	1 Shelley St, Sydney	NABERS Energy Rating 4.5, Water Rating 4.5; Green Star Design 6 star, As-Built 6 star; 2010 Winner Rider Levett Bucknall PCA - Innovation & Excellence Award
		n/a	2 Market St, Sydney	NABERS Energy Rating 5
		n/a	105 Phillip St, Parramatta	Green Star Design 6 star, As-Built 6 star; Integrated fit-out design; Water efficient fitting & fixtures; Rainwater harvesting system with 10kL rainwater tank.
		n/a	167 Macquarie St, Sydney	NABERS Energy Rating 4.5
		n/a	10 Shelly Street, Sydney	NABERS Energy Rating 5, Water Rating 4
		n/a	12 Shelly Street, Sydney	NABERS Energy Rating 5, Water Rating 4
		n/a	570 Bourke Street, Melbourne	NABERS Energy Rating 5
		n/a	11 Exhibition St, Melbourne	NABERS Energy Rating 4.5
		n/a	990 La Trobe St, Melbourne	NABERS Energy Rating 5.5, Water Rating 6; Green Star Design 6 star; Tri-generation plant used for heating, cooling and base/load power; Under-floor air distribution system, vacuum toilet system and rain water harvesting tank.
		n/a	55 King St, Melbourne	NABERS Energy Rating 4.5, Water Rating 4
		n/a	275 George St, Brisbane	NABERS Energy Rating 5, Water Rating 4; Green Star Design 5 star, As-Built 5 star
		n/a	900 Ann St, Fortitude Valley	Green Star Design 5 star, As-Built 5 star; 2018 Winner - Development of the Year, Urban Regeneration - Urban Developer Award
		n/a	225 St Georges Terrace, Perth	NABERS Energy Rating 4, Water Rating 4
			Northbank Plaza	69 Ann St, Brisbane
		Richlands Distribution Facility	260 Orchard Rd, Richlands, QLD	1,100 kW rooftop solar system
		University of Western Sydney	169 Macquarie Street, Parramatta	Green Star Design 5 star, As-Built 5 star; 2017 Winner - Commercial Office Metro Development - Urban Taskforce Award
	IFM	Adelaide Airport	Australia (SA)	Uses recycled water for an irrigation and bathroom flushing in Terminal 1; undertakes storm water harvesting in its car park; significant investment in solar PV arrays providing c.10% of the airport's annual power usage; supporting the protection of flora and fauna; establishment of sustainably focused landscaping guidelines on all airport land. Market leader in sustainability as evidenced by its 2018 GRESB score, (the second highest ranked transport asset globally)
		Aleatica (Toll Roads)	Mexico	Rollout of "EcoTag" on its tollway, Conmex in Mexico City, offering customers with electric or hybrid cars a 20% discount to travel along the corridor.
		Ausgrid (Electricity Transmission and Distribution)	Australia (NSW)	Program to incentivise customers who invest in renewables and energy efficiency measures that permanently reduce their electricity use on Ausgrid's network (expected to reduce emissions by about 10,000 tonnes pa.)
		Brisbane Airport	Australia (QLD)	Over 285 hectares of protected biodiversity zones equal to more than 10% of the airports landmass. 6MW solar PV anticipated to save for \$1M per annum in electricity costs and a reduction in 8,000 tCO2. Fleet of 11 buses expected to save 250 tCO2 per annum compared to their diesel equivalent. An extensive program for water recycling resulting in significant reductions in potable water usage. Promotes food donations to reduce the amount of waste going to landfill.
		Colonial Pipeline Company	United States	Installation of solar panels on idle land to assist in powering the pumps within the pipelines.

## Assets with Positive ESG Attributes

Asset Class	Investment Manager	Asset Name	Location	Description of positive ESG attributes (refer to descriptions of some of the acronyms at the end of this document)
		Manchester Airports Group	United Kingdom	London Stansted, East Midlands and Manchester airports were the first airports to in the UK to achieve carbon neutrality. 100% of purchased electricity is from renewables sources.
		NSW Ports	Australia (NSW)	Reduced vessel related charges at Port Botany and Port Kembla for vessels meeting the highest environmental and missions standards.
		Port of Brisbane	Australia (QLD)	Recent project received an 'Excellent' rating for its construction from the Infrastructure Sustainability Council of Australia (ISCA). Offsite stormwater treatment – incorporating the <u>port's scientifically based and assessed offsite</u>
		Southern Cross Railway Station	Australia (VIC)	Partnership with Travelers Aid provides a range of onsite services including mobility and medical companion services. Supporting a Guide Dogs Victoria and PTV initiative involving a trial installation of beacon technology devices.
	Capella Capital	Darling Harbour Live (Social Infrastructure)	Australia (NSW)	520kW PV array situated on the roof of the convention centre. Powers approximately 5% of the baseline energy for the venue.
		Anglian Water Group (Water and Wastewater)	United Kingdom	Plans to invest GBP 100M for the installation of smart meters in the period 2020-25. Plants to invest GBP21M in water efficiency campaigns and initiatives in the period 2020-25. Target to become a carbon neutral business by 2020. Actively working with farmers to promote usage of less harmful pesticides.
		Coriance (Steam and Hot Water Supply)	France	60% of Coriance's energy production comes from renewable resources, the highest currently of any market participant. Nine of Coriance's district heat networks were awarded the prestigious "Ecoreseau de Chaleur" notation recognising their use of sustainable energy for heat generation. First network in France to supply district cooling using recovered energy from waste.
	First State Investments	Finerge (Renewable Energy)	Portugal	Acquired additional renewable capacity to increase its total clean energy footprint. Donated EUR500K to 'Fundo do Lobo' a fund established to protect the local Iberian wolf population. Working with the Environmental Agency to protect the local bat population close to its wind production sites.
		Parkia (Car Parking)	Spain	Integrated water collection, pumping and storage saving approximately 250,000 cubic meters of water and EUR10,000 per annum.
		Scandlines (Transport)	Denmark	Operates the world's largest hybrid fleet, with four hybrid ferries.
		Swedegas / Weum Gas (Gas Distribution)	Sweden	Developing new infrastructure that is expected to drive cost savings and lower CO2 emissions.
		ElectraNet (Electricity Transmission and Distribution)	Australia	Seeks to minimise, or where possible prevent, environmental impacts as it actively pursues energy and infrastructure solutions for a better world – management system is environmentally certified (ISO14001); The Dalrymple ESCRI (Energy Storage for Renewable Integration) 30MW/8MWh battery installed to by ElectraNet provides grid security in the form of frequency control, and provides "islanding" mode operation for the Yorke Peninsula when major outages occur; Committed to protecting the safety and health of its employees, contractors and the public – management system is safety certified (AS4801); Community engagement program based on the principles of the International Association for Public Participation.

## Assets with Positive ESG Attributes

Asset Class	Investment Manager	Asset Name	Location	Description of positive ESG attributes (refer to descriptions of some of the acronyms at the end of this document)
Infrastructure	Morrison's	Interlink (Toll Roads)	Australia	Water quality basins installed that trap oils, sediments and rubbish before releasing storm water into drainage; Approximately 200 tonnes of roadside litter collected and disposed of responsibly each year – equivalent to the total waste created by 93 Australians annually; Approximately 200 road user spills a year cleaned up safely and responsibly; Extensive community investment program supporting health and welfare, community development, youth development, veterans and the environment
		Melbourne Airport	Australia	CHWV trigeneration scheme at Melbourne Airport produces approximately 25 per cent of all airport energy. Waste heat utilised to provide heating and cooling; Funding approximately 500 scholarships in a three-year partnership with Western Chances which seeks to nurture the unrealised potential of youth from western Melbourne; Established a community grants program supporting
		Perth Airport	Australia	Rated by airlines as Australia's best major airport in the Australian Competition and Consumer Commission (ACCC) monitoring report; Committed to aboriginal heritage and engagement, including a partnership with the Wirrpanda Foundation that supports indigenous employment; Public Art Program that reflects Western Australia's unique and diverse culture, natural beauty and environmental features, as well as recognise the airport's strong Indigenous heritage
		Phoenix Natural Gas (Gas Distribution)	United Kingdom	Phoenix LIFE (Leadership, Investment in People, Fostering Community, Environment) provides an overarching framework for the initiatives that positively impact its marketplace, workplace, environment and community; Achieved Platinum status (the highest scoring level) in the 2019 Northern Ireland Environmental Benchmarking Survey; Significant carbon emissions reductions achieved through the conversion of oil based residential heating systems to natural gas-based systems.
		Porterbrook (Rail)	United Kingdom	Innovation Hub project provides a Class 319 unit to suppliers for the installation and testing of new equipment or technology; Partnering with South Western Railway and Eminox Limited ('Eminox') to trial ground-breaking, diesel combustion emissions-reducing technology.
		South East Water	United Kingdom	Independent Customer Challenge Group ensures that South East Water puts its customers at the heart of its policy-making, pricing and business plans; Sustainability Finance Framework in place to support future green financing options. The Framework highlights how the company supports five of the United Nation Sustainable Development Goals; Advocating for new legislation to require water efficiency devices to be installed as standard in new and renovated homes under building regulations. Have also been advocating for mandatory water labelling on white goods.
		Sydney Desalination Plant	Australia	Electricity needs for the desalination plant are fully offset by renewable energy produced at the purpose-built Capital Hill Wind Farm, the largest wind farm in New South Wales; The site houses a 15-hectare protected environmental

## Assets with Positive ESG Attributes

Asset Class	Investment Manager	Asset Name	Location	Description of positive ESG attributes (refer to descriptions of some of the acronyms at the end of this document)
		TransGrid (Electricity Transmission and Distribution)	Australia	The GreenGrid program, a partnership between TransGrid and Greening Australia has been 'Bringing Life to Landscapes, Bringing Landscapes to Life' since 1997; Through its Community Partnerships Program, it actively contributes to areas where its infrastructure is located, and where it is undertaking network upgrades; Its BeSafeKids is a program that educates children about electrical safety; Committed to supporting the national reconciliation movement as part of its Diversity and Inclusion Strategy. Reconciliation Action Plan in place.
	QIC	Lochard Energy (Energy Storage)	Australia (VIC)	Awarded the GRESB Sector Leader Award in 2018. Partnership with a local high school support their STEM (Science, Technology, Engineering and Maths) programme over the next 5 years. Management improved reporting to the Board on safety matters and implemented a number of operational and system improvements.
		MasParc and Mobility (Social Infrastructure)	United States	QIC and Northeastern University entered into a 50 year concession agreement for the operation of the University's campus wide parking system and potential future mobility services which is expected to reduce congestion and greenhouse gas emissions.
		Port of Melbourne	Australia (VIC)	Partnered with one of its tenants, Foodbank - Australia's largest hunger relief organisation to establish a corporate social partnership program. In July 2018, PoM joined forces across the supply chain to provide assistance to drought affected farmers in NSW who were unable to feed their stock due to below average rainfall. Joined forces with Ocean Crusaders and Victorian Ports Corporations to work alongside hundreds of other volunteers to remove more than a tonne of plastic and debris from riverbanks.
		Powering Australia Renewables Fund - Solar Flagships (Broken Hill and Nyngan) - Silverton Windfarm - Coopers Gap Windfarm	Australia (NSW, QLD)	Development of 1,000MW of large scale renewable energy by 2020 within Australia's National Electricity Market.
		Abacus	Hong Kong	Solve the problems caused by the overuse of herbicides through the use of robotics and AI.
		Actuator Venture Capital Fund	Australia	Developing the next generation of medical devices to help advance the sector
		AgMesh	Australia	IoT-assisted farm management and productivity solutions.
		AgMesh	Australia	Digitising paddocks and pastures to monitor feed conversion in animals.
		AgUnity	Australia	A smartphone solution for farmers in developing countries.
		AirTracker	Australia	A comprehensive local air quality analysis.
		Augmented Bionics	Australia	A device that's a non-surgical alternative to cochlear implants.
		Balance power	Australia	Energy storage 'as a service' solution to provide all renewable energy generators.
		Bharati Robotics	Hong Kong	Robotic Solutions for Service, Defence, Industrial, Agricultural and many other sectors.
		Bindi Maps	Australia	Augmenting the navigation of visually impaired.
		Birth Beat	Australia	Online childbirth education.
		BlueVolt Solar	Australia	High efficiency solar panels which are easy to install.
		Breathe Well	Australia	Improving medical imaging and cancer radiotherapy procedures.
		Bring Me Home	Australia	Application providing discounted surplus food from cafes and restaurants.
		BuzzCloudGlobal	Hong Kong	Leveraging AI and their instrumented bee hive the iBuzzHive™ in order to provide commercial bee farmers with the actionable management information.
		Cancer Aid	Australia	An application that helps cancer patients with their journey.
		CardiHab	Australia	A digital health company for heart disease.
		Careseekers	Australia	An online service connecting people looking for carers with qualified carers.

## Assets with Positive ESG Attributes

Asset Class	Investment Manager	Asset Name	Location	Description of positive ESG attributes (refer to descriptions of some of the acronyms at the end of this document)
		CareVoice	Hong Kong	The first independent recommendation platform designed specifically for healthcare.
		ChargeCube	Australia	Modular, solar battery system.
		Circular Experiment	Australia	Diverting food waste via sewage networks to be converted into energy.
		Clarity Pharmaceuticals	Australia	Providing antibody and peptide imaging services.
		Clean Energy Seed Fund	Australia	Developing the next generation of clean energy to help advance the sector
		Compare Fit	Australia	A comparison provider for the health and fitness industry.
		Curatek	Australia	An adhesive and wireless disposable patch that uses novel sensor configuration to automatically monitor respiratory rate of patients.
		Cycle Port	Australia	Automated, mobile, electric-bike vending machines.
		Ecoli Sense	Hong Kong	Real-time bacteria detection sensors using cutting edge nanotechnology and state of the art calibration techniques.
		Edible Bug Shop	Australia	Australia's largest insect protein manufacturer and supplier.
		Elite Robotics	Australia	Autonomous Vehicle Technology.
		Energy Panda	Australia	Household energy consumption.
		Everyt	Australia	Intelligent device charging solutions.
		Evrima Technologies	Australia	Accelerating clinical trials.
		FamFit	Hong Kong	A.I. powered multiplayer mobile games that get you exercising.
		FarmApp	Australia	An Integrated Pest Management (IPM) software-based service for crops.
		FarmPay	Australia	A supply chain management platform for on-farm grain sales.
		Flomatrix	Australia	A matrix design at the end of a catheter which allows multiple entry/exit holes.
		FluxPower	Australia	Linking households energy systems to a smart contract.
		Fresh Supply Co	Australia	Blockchain applications for agricultural producers to improve traceability.
		GEOMEO INFORMATICS	Hong Kong	Building a mesh enabled easily deployed wireless nodes to connect remote and rural villages to the internet.
		Habibi Garden	Hong Kong	Ensuring crops are nourished at optimum levels by hi-tech sensors, automatic pumps and analytics.
		Hexagon Innovation Holdings	Australia	A wearable technology that enables reliable fall detection, medication adherence as well as abnormal.
		Hippo & Crate	Hong Kong	Boutique quality toothbrushes and oral care products at affordable prices.
		Hudlog	Hong Kong	Head-up display for improving driving behaviour of commercial fleets.
		Income Energy	Australia	Incentives for commercial landlords to install solar.
		Invertigro	Australia	Indoor vertical farming solutions.
		IoTag	Australia	IoTag enables farmers to locate and detect events related to cattle.
		Jay-Nik	Australia	Syringe technology increasing safety and accuracy in delivering medications.
		Jetbrain Robotics	Hong Kong	Advanced robotic transportation solutions for hospitals.
		Lenexa Medical	Australia	A pressure injury detection sheet.
		Medic	Australia	A platform that connects patients and doctors.
		Meksi	Australia	A medical education tool enhancing medical professionals' diagnostic skills and accuracy.
		MindFit	Australia	A self-help app that focuses on mental health training.
		Miro	Hong Kong	Computer vision AI analyses the human body in motion and delivers one-of-a-kind insights for the sports and fitness industry
		Mova Motion	Australia	A physiotherapy application.
		Navi	Australia	Medical device improving vascular access for procedures in critically ill newborns.
		Needle Calm	Australia	A medical device to alleviate the pain of injections.
		Never Farm	Australia	An autonomous, energy-efficient, renewables-powered, indoor commercial farm
		Nexus eWater	Australia	Providers of a grey water product that recycle water and generate energy.
		Nutromics	Australia	A wearable technology to noninvasively and continuously measure post meal glucose levels.
		Off The Table	Australia	A platform for customers to uncover seasonal food and culture.

## Assets with Positive ESG Attributes

Asset Class	Investment Manager	Asset Name	Location	Description of positive ESG attributes (refer to descriptions of some of the acronyms at the end of this document)
	Artesian Venture Capital	Ohm Power	Australia	Homeowner's personalised energy advisor platform.
		Onboarded	Australia	A platform that helps patients make better health decisions.
		One Degree Health	Australia	Improving the health of individuals through health behaviour change theory and practice.
		Outofbox	Australia	Smart monitoring solutions for livestock health.
		Pak360	Australia	A national platform to recover Pak360 tree free disposable and reusable packaging.
		Pelvic Expert	Australia	Online programs for pregnancy, chronic pelvic pain and menstrual issues.
		Planto	Hong Kong	Finance management and budgeting application for millennials.
		Platform	Australia	Integration platform for tractors using smart phones.
		Pracway PL	Australia	A checklist to demonstrate patient understanding of a medical consent form.
		QooWear	Australia	AI-controlled Heating Garment, which is able to automatically change its temperature protecting workers from extreme sub-zero temperatures.
		Radetec	Australia	Fast, accurate and inexpensive Point-Of-Care diagnostic of various serious infectious diseases such as STDs, Hepatitis, HIV and rabies.
		Re:start charging	Australia	On-demand charging units for electric vehicles.
		RehabSwift	Australia	A restorative brain-computer interface (BCI) to kick-start stroke recovery.
		Respia Technologies	Australia	Asthma management system that tracks and records your child's respiratory health.
		Revsmart	Hong Kong	Ride assistant and activity tracking smart helmet for two wheeler riders.
		Seoul Robotics	Korea	Software to help self-driving car companies fully optimise their LIDAR sensors.
		Sirius Energy	Australia	Real-time triggers to change energy usage behaviour.
		SkyeBrowse	Hong Kong	Using drones to make accident investigation 98% faster.
		SmartAHC	Australia	IoT tag enables farmers to locate and detect events related to pigs.
		SmartPeep	Singapore	AI patient monitoring system predicting risk through movement patterns.
		Snaptrap	Australia	Pest management and monitoring system.
		Social Pinpoint	Australia	An online forum for social activity.
		Soldier.ly	Australia	An app designed to support veteran health.
		Somatrak	Australia	Hand-held body composition scanner developing a new personalised global standard for body composition.
		SproutX Venture Capital Fund	Australia	Developing the next generation of agricultural technology to help advance the sector
		Stelect	Australia	A device to improve stent selection through accurate length and diameter measurements of coronary blockages.
		Sunshine Cycles	Australia	Solar powered and rechargeable electric bikes from self-serve pods.
		Swoop Aero	Australia	Airborne mobility as a service, with a particular focus on healthcare.
		Tech Gym	Australia	Robotics to reimagine how physiotherapists assist stroke patients through the rehabilitation process.
		Thingc	Australia	An animal monitoring system.
		Tournicare	Australia	Wearable device for at home blood pressure monitoring.
		Vantari	Australia	A virtual reality application for medical imaging.
	VitaliTrace (Iris Biomedical)	Australia	Developing a device that allows obstetricians to accurately and safely monitor babies and mothers during labour and delivery.	
	Water Save	Australia	An automated farm irrigation solution.	
	Watr	Hong Kong	Cost effective smart water monitoring system.	
	WE CARE	Vietnam	Predicting women's health by tracking their daily activities and health status.	
	Wolkus	India	Using sensors, artificial intelligence and data science to make on-farm predictions.	
	Zenogen	Australia	A zero-carbon-emissions method of producing industrial gases.	
	Zero Impact Energy	Australia	Recycling coffee waste into high-performance fuels.	
				Online platform that enables Brands to buy the specific recovered plastic they need (by type, colour, condition and location) direct from a community of collectors. The platform coordinates the collectors, drop off hubs and logistics, getting the valuable plastic back to the Brand for reuse.
		PlastX	Australia	

## Assets with Positive ESG Attributes

Asset Class	Investment Manager	Asset Name	Location	Description of positive ESG attributes (refer to descriptions of some of the acronyms at the end of this document)
Private Equity		Battery Graphene	Australia	A startup developing innovation in the field of battery current collection and casing with the use of graphene in various other material blends.
		Drummer PL	Australia	A drone solution (hardware-as-a-service) to carry out crop pollination inside a glasshouse environment, including a swarm of autonomous drones and a control interface to carry out pollination, supplied through industry distributors and operated by the customer. Drummer has the vision to ultimately gather crop health data, fast tracking entry into the larger, global crop health monitoring market.
		Leakster Pty Ltd	Australia	Development of the hardware and software to provide a ground-breaking water distribution asset monitoring solution that detects, classifies, and pin-points water distribution pipeline leaks - enabling water utilities to make more efficient asset management decisions.
		Allume Energy PL	Australia	A world first hardware technology (SOLSHARE) which allows a single solar system to be dynamically and optimally shared by multiple residents or businesses within a building to help reduce their carbon footprint and electricity bills.
		Greengrid Energy	Australia	Provision of peer to peer energy sharing platform to communities connected or not connected to the main grid.
		Solar Pack Sheds	Australia	Providing modular solar charging sheds
		Symbiot Inc.	Australia	Symbiot is an integrated hardware and software company that leverages smart home technology to optimise and control residential energy consumption.
		Agri Biopower	Australia	Developing a waste to energy solution using gasification technology from waste to energy.
		BlockTexx PL	Australia	A textile recycling business and marketplace for the world's recycled textiles and has developed a world first technology that diverts textiles and clothing away from landfill
		Renewable Exergy	Australia	Software for efficient demand management.
		GroWave Pty Ltd	Australia	Microwave weed management and soil treatment solution being developed out of the University of Melbourne.
		UBOT Pty Ltd	Australia	Low Cost Autonomous Citrus Harvester
		Smart Foal	Australia	Smart Foal Pty Ltd designs and sells horse monitoring devices.
		PairTree Intelligence	Australia	A Software as a Service (SaaS) to integrate any data set into a single source of truth, for operational efficiency and sustainability
		Mobble	Australia	Develop and distribute software within the agricultural industry.
		True Nosh	Hong Kong	Create products focusing on wholesome plant-based ingredients to maximize protein and fiber allowing each serving size to be lower or equal to 1 carbohydrate choice in order to fight diabetes
		Drone Delivery System	USA	Manufactures smart IoT hardware receptacle for last mile secure delivery, AirBox Home solar smart mailbox, AirBox Sky cold-chain transport box, DroneX delivery drones, integrated last mile delivery AirBox kits.
		Frontier Bio	USA	Frontier Bio makes advanced bioprinting hardware and look to develop and commercialize tissues to sell to pharma for drug development, and tissues for implantation
		Caskai	USA	Caskai North America imports and produces non-alcoholic beverages made from Cascara - the dried husk of the coffee cherry.
		Fat Baby	Hong Kong	The research, development, production of sustainable food products and services
Blankit	USA	Blankit is developing a smart platform for hospitals and homes using IoT, AI, computer vision and data analytics which aims to improve patient experience, streamline logistics, reduce costs, and collect data in hospitals and care homes to increase visibility on the patient situation, ultimately leading to improved care and faster response times.		
Cerealthy	Hong Kong	Cerealthy has created the world's first plant-based milks pods to help coffee machines's consumers to enjoy a pleasant coffee with healthy ingredients.		

## Assets with Positive ESG Attributes

Asset Class	Investment Manager	Asset Name	Location	Description of positive ESG attributes (refer to descriptions of some of the acronyms at the end of this document)
		Has Algae	QLD (Australia)	Provide algae strains to fortify foods and as a nutritional supplement. We aim to uncover more uses and strains of algae through biotechnology.
	Blackbird Ventures	Applied	United Kingdom	Recruitment platform to remove bias from the hiring process.
		Baraja	Australia	High resolution LIDAR for robotics, autonomous vehicles.
		Bugcrowd	United States	Crowdsourced cybersecurity platform.
		Chuffed	Australia	A crowdfunding platform for social causes.
		Culture Amp	Australia	Platform to help companies measure, review and improve employee engagement, culture and performance.
		EARTH AI	Australia	Improving the efficiency of mineral exploration.
		Fleet	Australia	Scalable global IoT, through the use of microsatellites.
		Freightfish	New Zealand	Rapid, cost-efficient sea transport for high-value, urgent and dangerous freight.
		Gilmour	Australia	Development of a low-cost space launch vehicles.
		Heuros	Australia	Alternative production of meat (cell-based).
		Inventia	Australia	3D bioprinting platform designed for cell biology.
		Morse Micro	Australia	Low power, long range Wi-Fi.
		SafetyCulture	Australia	Occupational Health and Safety audits and inspections platform.
		See-Mode	Singapore	Using medical images to assess stroke and improve patient care.
		Sundrive	Australia	Provides the community with a source for producing renewable energy.
		Sunfed Meats	New Zealand	Alternative protein source, plant-based meat.
		Zoox	United States	Autonomous mobility (robo-taxi).
	Brandon Capital	Aravax	Australia	Peanut allergy vaccine.
		Athena Medicines	Australia	Treatment for human autism.
		Azura Ophthalmics	Israel	Treatment for a particular dry-eye disease, that currently has no pharmaceutical treatment.
		Cardiora	Australia	Therapeutic for the management of heart failure.
		Certa Therapeutics	Australia	Treatment of inflammation and fibrosis of a range of chronic conditions.
		Cincera Therapeutics	Australia	Therapeutic treatment for liver fibrosis and other fibrotic conditions, extending and improving the quality of life for sufferers.
		EBR Systems	United States	Device based therapy for dyssynchronous heart failure patients
		Ena Therapeutics	Australia	Treatment and prevention for respiratory infections.
		Global Kinetics Corporation	Australia	A commercial-stage digital health company revolutionising the management of Parkinson's disease by providing the first continuous and objective measurement of patients' symptoms in everyday environments.
		Kea Therapeutics	New Zealand	Non-addictive alternative to opioids for the treatment of moderate to severe acute pain.
		Longas Technologies	Australia	Developing Morphoseq™, a disruptive technology improving the performance of Next Generation Sequencing platforms, by increasing effective read lengths, with benefits in accuracy and cost efficiency.
		MecRx	Australia	Cancer therapeutic for a wide range of cancers, including tumours.
		OccuRx	Australia	Therapeutic treatment for diabetic eye disease.
		Okogen	United States	A topical therapeutic for the management of viral conjunctivitis.
		OncoRes Medical	Australia	Imaging device that is used during surgery to assess the complete removal of tumour, increasing the surgical accuracy and reducing the number of repeat surgeries.
		Osprey Medical	Australia	Dyevert device that reduces the amount of contrast dye required for medical imaging, decreasing the rates of contrast induced nephropathy.
		Paragen Biotherapeutics	Australia	Treatment for the management of severe, chronic autoimmune diseases, such as Crohns disease.
		PolyActiva	Australia	A drug-polymer conjugate technology to enable site specific drug delivery.
		Que Oncology	United States	Treatment for cancer patients who experience hot flashes as a result of undergoing chemotherapy treatment.
		Respiration Pharmaceuticals	Australia	Treatment of Cystic Fibrosis lung disease.

## Assets with Positive ESG Attributes

Asset Class	Investment Manager	Asset Name	Location	Description of positive ESG attributes (refer to descriptions of some of the acronyms at the end of this document)
		Wolf Biotherapeutics	Australia	Treatment for the management of auto-immune diseases such as Lupus.
	Carthona Capital	Ageris	Australia	Robotic systems to improve farm productivity, and to support environment sustainability and animal welfare.
		Credible Labs Inc	United States	Lending platform for competitive student and personal loans, and mortgages.
		Medius Health Pty Ltd	Australia	Helps reduce the burden for medical professionals in primary healthcare.
		Ouster Inc	Australia	Facilitate enrolment in clinical trials with the support of registered nurses.
		Paratus Clinical Pty Ltd	United States	High resolution LIDAR for robotics, autonomous vehicles.
		Wildcard Money Pty Ltd	Australia	Helping to provide clinical trial research.
		Daedalean AG	Switzerland	Developing software to partner with manufacturers of eVOTs/PAVs to enable autonomous flight.
		Responsight Pty Ltd	Australia	Enabling businesses to identify, profile and prioritise threats at their end points.
		Valiant Finance Pty Ltd	Australia	Digital broker platform assisting small businesses to search and apply for business loans.
		Indebted Australia Pty Ltd	Australia	Data driven debt collection platform that works with customers to resolve debt issues and focuses on customer centricity.
		Zenful Inc	United States	Automated emotion tracking and management app seeking to accurately predict and monitor a user's emotional state
	Continuity Capital	WindLab	Australia	Collection of wind data for the effective siting of wind turbines.
	Flexstone Partners	Accelecare/Healogics	United States	Provider of advanced wound care services.
		AeroSafe Global	United States	Highly insulated packaging material that is recycled, for cold-chain logistics.
		ECI	United States	Improving energy efficiency.
		Lucent Health Solutions, Inc	United States	Data-driven and member-centric health plans.
		Prelude Fertility, Inc.	United States	Network of fertility clinics in the United States.
	Hermes GPE	Women's Health USA	United States	Provider of women's health physicians and practices.
		CDx Diagnostics	United States	Advanced diagnostic tests that empower physicians to pre-empt cancer.
		E-Leather	United Kingdom	Manufacturer of composite leather, made from recycled leather cut-offs.
	IP Group	Lyft	United States	Ride sharing platform, aimed at reducing the number of vehicle journeys.
		Oxford Nanopore Technologies	United Kingdom	Low cost DNA sequencing products (portable and non-portable), for rapid disease detection, diagnosis and treatment.
	M H Carnegie	Ultrahaptics	United Kingdom	Non-contact tactical feedback system using ultrasonics for controlling devices for a safer and cleaner future
		Brain Protection Company	Australia	Therapies and diagnostics for age-related dementia/Alzheimer's disease.
		Cardiac Dimensions Australia	Australia	Device for mitral valve repair, for the treatment of heart failure.
		EBR Systems (Aust)	Australia	Device for particular heart failure patients with limited treatment options and poor quality of life.
		Enviss	Australia	Provides a way to purify polluted water and runoff, increasing the amount of water sources available.
		Minomic	Australia	Diagnostic for cancer.
		Renew Medical	Australia	Device for sufferers of accidental bowel leakage.
	Main Sequence Ventures	Simplify Medical	Australia	Implantable cervical disk replacement for degenerative disc disease of the spine.
		Baraja	Australia	High resolution LIDAR for robotics, autonomous vehicles.
		Coviu	Australia	Cloud based telehealth application providing interactive medical treatment.
FluroSat		Australia	Agricultural remote sensing and machine learning for accurate and actionable information on crop health and nutrition.	
Gilmour Space		Australia	Development of low-cost space launch vehicles.	
Indee Labs		Australia	Improved equipment for gene modified cell therapy.	
Inventia		Australia	Biomedical 3D printing for cell based medical research	
Maxwell Plus		Australia	Fast, accurate prostate cancer diagnostic products	
Morse Micro		Australia	Long range, low energy Wi-Fi chips	
Myriota	Australia	Low-cost, low-power, secure direct-to-orbit satellite connectivity for the IoT.		

## Assets with Positive ESG Attributes

Asset Class	Investment Manager	Asset Name	Location	Description of positive ESG attributes (refer to descriptions of some of the acronyms at the end of this document)
		Practera	Australia	Flexible experiential learning programs
		Q-Ctrl	Australia	Improve the performance of quantum computing hardware, error control
		Rapid Aim	Australia	Automated pest detection for crop protection.
		V2 Foods	Australia	Alternative meat source, plant-based meat.
		Kapiche	Australia	Software for unsupervised machine learnings insights into customer sentiment
		Kasada	Australia	Protection from automated cyber-threats
		Fivecast	Australia	AI enabled behavioural threat analysis to solve investigative and intelligence challenges
	Partners Group	AAVAS Financiers Limited	India	Housing loans to customers in low and middle income segment in semi-urban and rural areas.
		Seabras-1	United States	Submarine cable is a new, fully operational, 10,500 km fibre optic cable which provides the first direct route between São Paulo and New York.
		Techem	Germany	Intelligent solutions to ensure the efficient use of heat, water, cooling and electricity around the world.
		Voyage Care	United Kingdom	Supports thousands of people with learning and physical disabilities, brain injuries, autism and other needs across England, Scotland and Wales.
	Safar Partners	Commonwealth Fusion Systems	United States	Emmissions-free limitless heat and power energy
	Square Peg Capital	Aidoc	Israel	AI for medical images that empowers radiologists to improve abnormality detection and patient care.
		Athena	Australia	Digital fintech providing more affordable mortgages.
		ClimaCell	Israel	Micro weather provider, increasing the efficiency and performance of weather dependent businesses.
		Kaodim	South East Asia	Task marketplace platform for physical jobs that improves small businesses ability to access demand
		Vi	Israel	Wearable instruments for measuring and improving human physiology and wellbeing.
		FinAccel	South East Asia	Digital fintech providing credit to the unbanked.
		Fiverr	Israel	Enabling digital service freelancers to find demand for their services.

**NABERS**, the National Australian Built Environment Rating System, is an initiative by the government of Australia to measure and compare the environmental performance of Australian buildings and tenancies. NABERS compares the performance of the building or tenancy to benchmarks that represent the performance of other similar buildings in the same location. Information which is considered as part of determining a NABERS rating includes energy and water use, as well as waste management.

The rating also takes into consideration:

- The climate where the building or workspace operates;
- The building's operational characteristics (such as opening hours in shopping centres);
- The level of services provided (such as heated swimming pool areas in hotels);
- The energy sources it uses;
- Its size and occupancy.

The adjusted data is then compared to the NABERS benchmark data and a star rating reflecting peer-relative performance is calculated.

**Green Star** is a voluntary sustainability rating system for buildings in Australia. It was launched in 2003 by the Green Building Council of Australia. The Green Star rating system assesses the sustainability of projects at all stages of the built environment life cycle. Ratings can be achieved at the planning phase for communities, during the design, construction or fit out phase of buildings, or during the ongoing operational phase.

The system considers, assesses and rates buildings, fitouts and communities against a range of environmental impact categories, and aims to encourage leadership in environmentally sustainable design and construction, showcase innovation in sustainable building practices, and consider occupant health, productivity and operational cost savings.

**WELL** Building Standard is a performance-based system for measuring, certifying, and monitoring features of the built environment that impact human health and wellbeing, through air, water, nourishment, light, fitness, comfort, and mind. WELL is managed and administered by the International WELL Building Institute (IWBI), a public benefit corporation whose mission is to improve human health and wellbeing through the built environment.

**CAF**, Cleaning Accountability Framework, is an independent, multi-stakeholder initiative that seeks to improve labour and cleaning standards in Australia.

CAF promotes the rights of cleaners, transparent and accountable cleaning supply chains, sustainable business models and responsible contracting practices.

CAF has developed a 3 Star Standard which focuses on six key areas of compliance:

- Labour
- Responsible contracting
- Workplace health and safety
- Financial Viability
- Worker engagement
- Remediation

**LEED**, or Leadership in Energy and Environmental Design, is a green building certification for the practice of designing, constructing and operating buildings to maximize occupant health and productivity, use fewer resources, reduce waste and negative environmental impacts, and decrease costs. LEED certifications can be obtained at the time of design and construction or during the operations of an existing building. The LEED grading is Certified, Silver, Gold, Platinum.
