Market update

Supplied by Jana Investment Advisers Pty Ltd. July 2010.

Overall the 2009/10 financial year has seen positive returns in shares, property and cash. A welcome relief after two years of tough times for investors.

The year kicked off with a strong start. We saw evidence of the 'green shoots' of an economic recovery, which encouraged investors back in to the share market and helped push along markets both here and overseas. We also saw positive trends in manufacturing activity and retail sales.

However a mixed economic picture began to develop towards the end of 2009. Although Australia was at the positive end of the spectrum, bad economic news in the US and Europe, like unemployment rates of over 10%, led to a sell-off in global share markets. Eventually this made investors in the Australian share market nervous and our share market rally also came to a halt.

The new calendar year saw concern about the amount of debt some European countries were getting into, in order to keep their economies ticking over – a bit like maxing out their credit cards! Countries like Greece, Portugal and Spain received credit rating downgrades and investors got very nervous that this would catch on and economies would collapse again. Then came an announcement of a \$750bn bailout package for Greece by the European Union and the IMF – a bit like Mum and Dad stepping in to help pay off the credit cards, and investors were able to relax a little which gave some relief to global share markets.

By the time 30 June came around, it had been a topsy turvy year for share markets. Australian shares finished the year up 13.1%. Despite the roller coaster ride, global shares also ended the year positively up 15.6%. For Australian investors in those markets the fact our dollar had climbed 4.5% during the year meant the value of those overseas gains converted back into Australian currency was reduced quite significantly.

The Property sector delivered a "tale of two cities". Listed Property Trusts, which had been decimated during the Global Financial Crisis, bounced back strongly this year returning 20.3%. Unlisted Property however delivered a more stable return of 3.1% over the year. It is important to note that the commercial, retail and industrial property sectors are pretty much unrelated to the housing property sector, which anyone trying to buy a home will know has seen a lot of growth this year. However, for the commercial, retail and industrial sectors it now appears things have finally bottomed out after a couple of very difficult years.

Global bonds returned 9.2% over the year, whilst Australian bonds returned 7.9%. Australia underperformed because our central bank, the RBA, was virtually the only central bank around the world raising interest rates in an attempt to cool the housing market. Towards the end of the financial year, as other areas of the economy looked shaky, investors continued to flock to the "safety" of US and German government bonds.

After a great start, we saw a difficult last half to the year. The mood in the markets has now returned to one of caution. As we look forward, many eyes are fixed on the ability of the emerging markets like China and India, to drive global economic growth in the absence of growth from the US and Europe.

Super update

The 2010-11 Federal Budget

Several proposed changes to super were announced as part of the 2010-11 Federal Budget. At this point the changes are proposed only and will need to be passed by Parliament before they become law. HOST**PLUS** will advise further if the changes become law and the effect to members.

Increases to the Superannuation Guarantee (SG) rates

Generally, this is the contribution made to an employee's super account by their employer. Currently the rate is 9% of an employee's salary. The Government is proposing to increase this to 12% by 2019 (see table below).

The Government's intention is to increase the superannuation of Australians to help offset the costs of an aging population.

Proposed timetable of SG rate increases:

Year	Rate (%)
2013-14	9.25
2014-15	9.5
2015-16	10
2016-17	10.5
2017-18	11
2018-19	11.5
2019-20	12

Changing the Superannuation Guarantee age limit from 70 to 75

It is proposed that from 1 July 2013 the superannuation guarantee (SG) age limit would increase from 70 to 75, meaning workers aged 70 to 74 would be eligible to receive SG contributions.

Currently, SG contributions aren't required for employees aged 70 and over. This increase in the age bracket would then bring employer SG contributions into line with employer voluntary deductible contributions and self-employed deductible contributions which can be made until employees turn 75.

This measure may provide an incentive for mature workers to remain in the workforce.

Low income earners Government contribution

Currently, as a result of the flat tax rate for all concessional superannuation contributions, low-income earners receive little or no tax advantage.

Under this proposal, the Government would provide a super contribution of \$500 annually for employees with an adjusted taxable income of up to \$37,000.

The amount payable under this measure would be calculated by applying a 15 per cent matching rate to the concessional (before tax) contributions made by or for individuals on adjusted taxable incomes of up to \$37,000, with an annual maximum amount payable of \$500 (not indexed).

The amount will be paid directly into an employee's super account. Concessional contributions made from 2012-13 would be eligible for the Government contribution which would be paid in 2013-14.

*Higher concessional caps**

Currently, transitional arrangements double the concessional contributions cap of \$25,000 (to \$50,000) for those aged 50 or over. This transitional arrangement will expire on 30 June 2012.

From 1 July 2012, a separate higher concessional contributions cap of \$50,000 (indexed) will be in place for those aged 50 or over who have total superannuation balances of less than \$500,000.

*These proposals have been passed by Parliament and are now superannuation legislation.

This proposal is aimed at those with lower superannuation savings. It is proposed they will be able to make additional 'catch-up' contributions close to retirement.

*Government co-contribution rate and income thresholds frozen**

Co-contributions are additional contributions that the Government makes to the superannuation accounts of eligible lower income workers who make after-tax contributions.

In the 2009-10 Budget, the Government reduced the matching rate for co-contributions to 100% and the maximum Government co-contribution to \$1,000 – a measure that was indicated as temporary.

However, the matching rate of 100% and the maximum superannuation co-contribution of \$1,000 will be retained permanently.

The co-contribution eligibility income thresholds will be frozen for the next two years at their present levels of \$31,920 (in order to receive the full co-contribution of \$1,000), phasing out completely at \$61,920.

Changes to HOSTPLUS insurance arrangements

From 1 December 2010, HOSTPLUS is introducing new insurance arrangements to improve the cover we offer members.

Premiums for Death and TPD cover will increase from \$1.00 per unit to \$1.50 per unit. Death Only cover premiums will increase from 50c to 75c per unit.

However, members will get an increase of between 51% and 73% in their insured benefits.

Members will also be able to apply for a fixed level of cover (up to age 65) and there is a new salary continuance scale to tailor your income protection to your circumstances – even to age 65.

These enhancements to the HOSTPLUS insurance offering aim to provide flexibility and affordability to members.

These changes are covered in the **Insurance update** which was included with members' half-yearly statement and **MORE** magazine mailed in September.

Duplicate account insurance arrangements

If more than one account is opened in your name and you receive cover under each account, you are only eligible to receive one insurance benefit (usually the most recent insurance arrangement you have with us, whether of higher or lower value). Any duplicate insurance premiums will be refunded.

If you are transferring to or from HOSTPLUS Executive which inadvertently results in you having insurance arrangements in both HOSTPLUS Executive and HOSTPLUS, the higher insurance arrangements will normally apply. However, you do have the option of retaining the lower value insurance.

If you have any further queries please call 1300 HOSTPLUS (1300 467 875).

Don't be a lost member

From 1 July 2010, the Government will require superannuation funds to transfer lost superannuation accounts to the Australian Taxation Office (ATO) as unclaimed monies where:

- the balance of the lost account is less than \$200, or
- the account has been inactive for a period of five years and the provider has insufficient records to identify the owner of the account.

Generally, you are classified as lost if:

- you cannot be contacted (ie. mail has been returned unclaimed)
- you joined the fund more than two years ago for the purpose of receiving employer contributions, and
- the fund has not received further contributions or rollovers.

Members will be able to reclaim their money from the ATO at any time.

Indexed Balanced – a new investment option

HOSTPLUS is introducing a new investment option called **Indexed Balanced** which will have a low investment expense of just 0 - 0.05%. It will be available for members to select from 1 December 2010.

*These proposals have been passed by Parliament and are now superannuation legislation.

Looking after your super investment

We've designed investment options with different investment objectives, strategies and risk profiles. We utilise high quality investment managers and together with our investment adviser, JANA Investment Advisers Pty Ltd (JANA), we monitor and review the performance of our options and make whatever changes are necessary to deal with the changing economic outlook.

Founded in 1987, JANA is one of Australia's leading asset consulting firms with approximately A\$154 billion under advice. JANA assists **HOSTPLUS** in establishing the overall investment strategy and investment objectives of all the fund's investment options.

The fund's investments are held by a custodian: JPMorgan Chase Bank N.A. – a leading global financial services firm with assets of US\$2.1 trillion and operations in more than 60 countries. JPMorgan is a leading global provider with more than US\$15.3 trillion in assets under custody. The firm is also a leader in investment banking, financial services for consumers, small business and commercial banking, financial transaction processing, asset management and private equity. A list of the investment managers and investments utilised for **HOSTPLUS** investment options can be found in the table on pages 22–23.

Before you consider making an investment choice, you may like to learn more about our investment process, outlined next.

1. Developing the investment strategy

The Directors of **HOSTPLUS** meet on a regular basis with JANA. JANA assists in establishing the overall investment strategy and the investment objectives of each investment option.

The Directors meet to determine the fund's strategic asset allocation. This involves the setting of the allocation between growth and defensive assets for the pre-mixed investment options. They decide which asset classes the fund will invest in and the mix of investment styles. They also set constraints on allocations to investments within each asset class.

2. Appointment and ongoing review of investment managers

Professional investment managers are selected based on a detailed assessment by the investment adviser and the Directors of **HOSTPLUS**. Once appointed, the investment managers are given detailed guidelines to follow and invest according to the strategy and risk profile stipulated.

The performance of the investment managers is constantly monitored. In fact, a monthly performance report is prepared for the fund's Directors by the custodian and a quarterly report by the investment adviser. The performance of each investment option and investment manager is also regularly reviewed to ensure it is achieving the agreed investment objectives.

3. The fund's earning rates

Pages 6–7 of this report details the earning rates for each investment option for the financial year ended 30 June 2010.

Net fund earning rates to 30 June 2010

Pre-mixed options

Year	Capital Stable	Conservative Balanced	Balanced	Shares Plus
2010	7.9%	8.5%	8.1%	9.3%
2009	-3.8%	-6.5%	-13.1%	-14.5%
2008	3.1%	1.0%*	-3.6%	-5.4%
2007	9.8%	–	16.8%	19.6%
2006	8.1%	–	15.5%	18.8%
6 mth	2.3%	0.4%	-0.9%	-3.3%
3 yr p.a.	2.3%	–	-3.2%	-4.0%
5 yr p.a.	4.9%	–	4.1%	4.7%
7 yr p.a.	6.1%	–	6.8%	7.7%
10 yr p.a.	5.8%	–	5.8%	5.2%

*This option was introduced on 1 October 2007, therefore this performance figure was for the nine months to 30 June 2008.

Past performance is not a guide to future performance. All net fund earning rates are after fees and taxes.

Explanation of terms

Net fund earning rate. This is the rate allocated to your account which could be positive or negative. The net fund earning rates are calculated using the effective compound rate.

Effective compound rate. A method of calculating earnings in each period where earnings are calculated on both the principal (the initial investment) and any amounts previously earned. The calculation assumes actual earnings are applied at a constant rate on both the principal and any amounts subsequently earned. The method assumes any subsequent earnings are reinvested on an ongoing basis for the life of the investment. For example, you invest \$1,000 in an account and it earned an effective compound rate of 10% per annum, the next year you will earn 10% on the original \$1,000 plus the \$100 in earnings received in the first year and so on.

Net fund earning rates to 30 June 2010 (cont)

Past performance is not a guide to future performance. All net fund earning rates are after fees and taxes.

Declared net fund earning rate

The declared net fund earning rate is based on the actual investment performance data for the previous week ending Sunday, less any applicable fees and taxation. However, for the last two weeks of June the declared net fund earning rate will not be finalised until 20–25 business days after 30 June. For the last two weeks of December, the declared net fund earning rate will not be finalised until 20 – 25 business days after 31 December.

The declared net fund earning rate can be positive or negative depending on investment performance. A negative earning rate can result in a reduction in your account balance.

Allocating net fund earnings to a member's account

Net fund earnings are allocated to your account:

- as at 30 June and 31 December each year (a statement is sent to you in approximately September and March respectively)
- when you switch between investment options
- when you fully withdraw (exit) or fully transfer out of **HOSTPLUS**.

Declared net fund earning rates are calculated on the daily balance of your account and are compounded daily. This is important as it is likely that you will have different closing balances in your account throughout the year as a result of transactions in your account (eg. contributions, taxation, insurance, account keeping fee, etc).

The declared net fund earning rates can be positive or negative depending on investment performance. A negative earning rate can result in a reduction in your account balance.

Note: Earnings are not allocated at the time of a partial withdrawal (exit) or partial transfer out of the fund.

Earnings allocated when you switch between investment options

You can switch between investment options as often as once a week free of charge.

When you switch between investment options, your request to switch is effective from the following Monday. The latest available declared net fund earning rate will be used to allocate earnings to your account.

Calculating earnings on partial withdrawals or partial transfers out of **HOSTPLUS**

When you are invested only in the Balanced option

The latest available declared net fund earning rate will be used to allocate earnings for the amount of the partial withdrawal or partial transfer. However this rate may be adjusted (positively or negatively) with the actual declared net fund earning rate for the applicable period when the first of any of the following events occur:

- 30 June and 31 December each year (a statement is sent to you in approximately September and March respectively)
- when you switch between investment options, or
- when you fully withdraw (exit) or fully transfer out of **HOSTPLUS**.

When you have made an investment choice other than the Balanced option

Earnings are not allocated to your account at the time of a partial withdrawal or partial transfer out of **HOSTPLUS**. The amount of the partial withdrawal or partial transfer is simply withdrawn from your account at the time. Earnings will be allocated when the first of the following events occur:

- 30 June and 31 December each year (a statement is sent to you in approximately September and March respectively)
- when you switch between investment options, or
- when you fully withdraw (exit) or fully transfer out of **HOSTPLUS**.

[#]The performance based cost component comprises actual fees paid and estimates of fees to be paid for the financial year ending 30 June 2010.

Most superannuation funds pay fees to investment managers to invest and manage their assets.

Investment expenses are deducted from investment returns before returns are applied to your account. All returns declared are net of these expenses.

The table shows the investment expenses paid for the financial year ended 30 June 2010, based on the funds under management in each investment option.

The costs for each of the investment options are in addition to the \$1.50 per week member fee (\$78 per year).

As the investment management costs attract a tax deduction, the total investment management costs after applicable tax deduction is the amount incurred by members. These costs are deducted before the net earnings for each investment option are declared and applied to members' accounts.

The expenses that will be payable for the 2010–11 financial year will be calculated as at 30 June 2011.

PricewaterhouseCoopers have performed independent procedures over the calculation of the investment costs and confirmed that they were calculated in accordance with the trustee's policy.

Important information about your super

When can you access your superannuation savings?

Generally, your super must be kept in a complying superannuation account until you reach your preservation age and have permanently retired from the workforce.

Depending on your date of birth, your preservation age varies, as the table opposite shows.

Date of birth	Preservation age
After June 1964	60
July 1963 – June 1964	59
July 1962 – June 1963	58
July 1961 – June 1962	57
July 1960 – June 1961	56
Before July 1960	55

Are all contributions preserved?

Generally, contributions made by your employer, and earnings allocated on all amounts, must be preserved. Until 30 June 1999, personal contributions were not usually preserved. However personal contributions made from 1 July 1999 are preserved. Any amounts that were non-preserved at 1 July 1999 will remain non-preserved, but the earnings allocated will be preserved. The table below provides a summary. Your twice-yearly **HOSTPLUS** statement will show the preserved and non-preserved components of your account.

	Up to 30 June 1999	From 1 July 1999
Employer contributions	Preserved	Preserved
Personal contributions	Non-preserved	
Net earnings on personal contributions	Non-preserved	
Net earnings on all other contributions	Preserved	

Can you access your superannuation in other situations?

You can apply to access your superannuation in a number of situations including:

- termination of employment after turning age 60 without necessarily retiring permanently
- once you reach the age of 65, even if you're still working
- in the event of your death
- permanent incapacity
- a terminal medical condition exists
- on the grounds of severe financial hardship subject to certain conditions and trustee approval
- on compassionate grounds as approved by the Australian Prudential Regulation Authority
- on termination of your employment with an employer sponsor where your preserved benefit is less than \$200
- on your permanent departure from Australia if you are an eligible temporary resident, or
- on complying with any other condition of release specified under superannuation law.

Please call **1300 HOSTPLUS (1300 467 875)** for more information.

Eligible rollover fund

In accordance with legislation and the fund's policy, if your account balance is less than \$400 (subject to change) and we have not received contributions for you for more than 18 months, we may transfer your account balance to our eligible rollover fund (ERF).

Our nominated ERF is AUSfund. However, if we have a current address we will write to you and give you the option to reactivate your account before transferring your **HOSTPLUS** account to AUSfund.

Their contact details are:

AUSfund Administration
PO Box 2468
KENT TOWN SA 5071

Phone: 1300 361 798

Fax: 1300 366 233

Email: admin@ausfund.net.au

Web: www.unclaimedsuper.com.au

If your superannuation benefits are transferred to AUSfund, your personal information will be used by AUSfund to establish your membership account and manage your superannuation balance, process your contributions, pay benefits, provide you with membership benefits and services, and correspond with you.

Being transferred to AUSfund may affect your benefits because:

- You'll cease to be a member of **HOSTPLUS**.
- Your insurance arrangements with **HOSTPLUS** will cease.
- You'll become a member of AUSfund and be subject to its governing rules. If **HOSTPLUS** can provide AUSfund with current contact details, AUSfund will send you their Product Disclosure Statement (PDS). You can also ask AUSfund for a copy.

- Accounts of \$50 or more attract a levy of \$10 per year or part-year, while lower balances are not subject to the levy but do not earn earnings. AUSfund protects all accounts from erosion due to the administration levy, so that the levy cannot exceed the earnings allocated to each account.
- AUSfund has a different investment strategy to **HOSTPLUS**, which is explained in their PDS.
- AUSfund does not offer insured benefits in the event of death or disablement.

For more information about AUSfund see the **HOSTPLUS** Member Guide PDS dated 31 March 2010. You can download a copy at hostplus.com.au

Unclaimed money

HOSTPLUS wants to keep in touch with you and makes every effort to do so. However, if you reach qualifying age for the age pension and are eligible to claim your super, but we cannot find you, then your investment becomes unclaimed money and must be paid to the Australian Tax Office (ATO) every six months.

You can enquire about unclaimed benefits by contacting the ATO on 13 10 20 or visit ato.gov.au/super.

If you believe you may have unclaimed money which may have been paid before 1 July 2007 please contact:

Registrar of Unclaimed Moneys
State Revenue Office
GPO Box 1641
MELBOURNE VIC 3001

Phone: 13 21 61

Web: www.sro.vic.gov.au

Lost members

The ATO has established a lost member register. This register contains details of the super accounts for members that funds cannot locate and certain members for whom contributions have ceased. All superannuation funds report lost members to the ATO twice a year.

You are classified as lost if no contributions or rollovers have been received for you during the past five years and we have lost contact with you.

If you think a fund may have lost contact with you, you can check with the ATO to see if you're registered as a lost member.

If you have inactive accounts in any other super fund, eligible rollover fund or retirement savings account, you may consolidate them into your **HOSTPLUS** account.

You can make enquiries at the ATO if you have lost contact with a fund and think you may be entitled to a benefit. Just call 13 10 20 or visit www.ato.gov.au/super and use SuperSeeker, the ATO's online tool to search for lost super.

Trustee indemnity insurance

Chubb Insurance Company Australia Ltd, Chartis, Liberty International and Dual underwriters provided trustee insurance cover from 30 September 2009 until 30 September 2010.

Audit

The annual audit of the **HOSTPLUS** financial statements is currently being completed. We expect the auditor to issue an unqualified audit opinion on the financial statements and the auditor's report is expected to be finalised by 31 October 2010. The audited financial statements and auditor's report are available on request.

Fund documentation

If you would like a copy of the **HOSTPLUS** Trust Deed or other fund documentation, please call **1300 HOSTPLUS (1300 467 875)**.

Confirmation of transactions on your **HOSTPLUS** account

Some transactions, like rollovers and transfers, are confirmed in writing with you directly when they occur. Other transactions, such as contributions, can be verified by checking your half-yearly benefit statements. You can also confirm transactions by accessing your account at hostplus.com.au. To register for this service, call **HOSTPLUS** on **1300 HOSTPLUS (1300 467 875)**.

Surcharge payments

The payment of superannuation surcharge will be deducted from member accounts if applicable.

Reserve accounts

The fund maintains reserves to cover the day-to-day operations of **HOSTPLUS** which are invested in a manner consistent with the fund's investment strategy in the Balanced option and in a manner that allows the fund to discharge its liabilities as they fall due. The total value of all reserve amounts at 30 June for the last four years has been:

2010: \$80,041,528

2009: \$72,719,316

2008: \$66,786,013

2007: \$61,220,329

Investment account

HOSTPLUS allocates investment earnings to members' accounts at 30 June and 31 December each year, when an account is closed, or when an amount is switched to another investment option. During the year, investment earnings are accumulated in an investment account, pending this allocation process. After six months, all investment earnings are allocated to members' accounts. The total value of this investment account at 30 June for the last four years was:

2010: (\$1,755,449)*

2009: \$1,968,281

2008: \$2,123,621

2007: \$2,013,531

*This is a timing issue on the receipt of investment earnings and on 1 July 2010 the investment account balance was again positive.

Administration account

The fees deducted from your account are deposited into the administration account and the accumulated funds are utilised to pay for the operations of **HOSTPLUS**.

Over the last four years, the administration account balance at 30 June has been:

2010: \$81,796,977

2009: \$70,751,035

2008: \$64,662,392

2007: \$59,206,798

Our professional partners

HOSTPLUS works closely with the following professional organisations to achieve our investment and administration objectives effectively and cost-efficiently:

- Administrator: Superpartners Pty Ltd
- Investment adviser: JANA Investment Advisers Pty Ltd
- Auditor: PricewaterhouseCoopers
- Insurer: ING Australia Limited
- Legal advisers: Norton Rose, IFS Legal
- Tax advisers: KPMG, Ernst & Young
- Master custodian: JPMorgan Chase Bank, N.A.
- Internal auditor: BDO Kendalls

Derivatives

The fund permits the use of derivatives to manage risk and enhance returns.

Derivatives are financial instruments linked to the future purchase or sale of securities, such as shares and other assets. They are common risk management tools.

Derivatives will only be utilised where such use is consistent with:

- the investment strategy adopted for that portion of the fund managed by the relevant manager
- the investment powers of the fund, and
- the strategy as agreed between the fund and the respective investment managers.

Some **HOSTPLUS** investment managers use derivatives to achieve their investment objectives and manage risk, while always complying with the asset sector investment guidelines. Derivatives may be used in the management of the fund's investment portfolio but may not be used to gear the portfolio or create net short positions.

The Australian Prudential Regulation Authority (APRA), sets standards for the prudent management of super funds and requires super funds to develop a policy to ensure proper use of derivative risk statements. **HOSTPLUS** has the Derivatives Risk Statements Part A and Part B as required by APRA. These summarise the policies, amongst other details, that **HOSTPLUS** has in place covering the use of derivatives.

Protecting small accounts

If at any time your account balance is less than \$1,000, **HOSTPLUS** member protection rules apply. If your account includes or has included SG or award contributions, the management costs deducted won't exceed the net fund earning rate applied to your account for that year.

During periods of poor investment returns, management costs are limited to any positive investment return plus \$10 per protected account. Management costs don't include insurance premiums and taxes, which will be deducted from your account as applicable.

Host-Plus Pty Limited was the trustee of the HOSTPLUS Superannuation Fund for the reporting period.

Corporate governance

HOSTPLUS follows a strict corporate governance policy for investments in Australian and international shares. Our policy provides proxy voting guidelines for mandated investment managers. It also includes extended reporting on pooled investment vehicles.

In 2009 HOSTPLUS became a signatory to the United Nations Principles for Responsible Investment (UNPRI). The UNPRI were developed to provide a framework to sustainable long term returns. The principles are not prescriptive but provide guidance to incorporate environmental, social and governance (ESG) issues into investment decisions.

HOSTPLUS will now focus on encouraging its investment managers to adopt the Principles.

Earnings on accounts

The trustee is entitled to retain any earnings earned on any monies paid to the fund that are later required to be returned, eg. refunds due to overpayments or those payments made in error to the trustee.

Currency hedging

International investments are vulnerable to currency fluctuations. Hedging removes the currency exposure of international investments.

HOSTPLUS partially hedges the currency exposure of all international asset exposures.

Your privacy is important to us

HOSTPLUS operates under stringent privacy guidelines and takes every step possible to protect your privacy. There are instances when we need to give information about you to third parties (such as the ATO), however, there are strict controls on how they can use this information. Our complete privacy guidelines can be viewed at hostplus.com.au or you can obtain a copy by calling 1300 HOSTPLUS (1300 467 875).

Enquiries and complaints

If you have an enquiry or complaint, call 1300 HOSTPLUS (1300 467 875), 8am–8pm, Monday to Friday. We'll do everything in our power to deal with your query promptly and courteously. If you're not happy with how your query is handled then we want to know. Please call us or write to:
