

# Hostplus Target Market Determination

For the Superannuation and Personal Super Plan

Effective date: 18 March 2022

Expiry date: 30 June 2022

# 1. Purpose

**This Target Market Determination (TMD) seeks to offer distributors and Hostplus staff with an understanding of the class of consumers for which this product has been designed, having regard to the likely objectives, financial situation and needs of the target market.**

**Members should refer to the Product Disclosure Statement (PDS) and supporting guides for detailed product information.**

## Product description

The *Hostplus Superannuation and Personal Super Plan* is a superannuation product offering the following key features:

- Provides access to a diverse range of investment options including various pre-mixed, sector, individual manager and member directed investment options
- Provides access to a variety of insurance options including death, total & permanent disability and income protection insurance options

This document is not a Product Disclosure Statement and is not a summary of the product features or terms of the product. This document does not take into account any person's individual objectives, financial situation or needs. Persons interested in acquiring this product should carefully read the Product Disclosure Statement for Superannuation and personal plan, available at [hostplus.com.au](https://hostplus.com.au) and consider obtaining financial advice before making a decision whether to acquire this product.

# 2. Target market

This product has been designed for a broad target market and includes investment and insurance options, which allows members to tailor the product to likely match their objectives, financial situations and needs. Distributors should take note of the separately identified sub-markets for the various investment and insurance options.

The **target market** (and sub-markets) for the *Superannuation and Personal Super Plan* is outlined below.

- Customers looking to invest their superannuation for the purpose of saving for their retirement.
- Customers who may want to insure against death or disability.

The **eligibility criteria** for *Superannuation and Personal Super Plan* are as follows:

A Customer must be:

- An Australian resident for tax purposes or are employed by an eligible Australian employer
- Certain investment options (Choiceplus) and insurance options have specific eligibility criteria apply to them

There are no members for whom the *Superannuation and Personal Super Plan* is not suited (negative target market) to and to whom distribution should be avoided.

## Investment Options

The below table defines the sub-market for each investment option within the *Superannuation and Personal Super Plan*.

Australian Shares (S&P/ASX 300 Index)	<p>Members who want a more active role in the investment and management of their superannuation, by investment into companies in the S&amp;P/ASX 300 Index, selected Exchange Traded Funds (ETFs) and Listed Investment Companies (LICs) and Term Deposits.</p> <p>To be able to invest in Choiceplus, a customer must:</p> <ul style="list-style-type: none"> <li>Be a Hostplus member with more than \$10,000 in their account.</li> <li>Have access to the internet, a current email address and registered for Choiceplus.</li> <li>Read and accept the terms and conditions during the registration process.</li> <li>Maintain a minimum balance of \$2,000 in one or more of their Hostplus pre-mixed, sector, or individual manager investment options.</li> <li>Transfer and maintain at least \$200 into their Choiceplus transaction account from their other Hostplus investment options.</li> <li>Make an initial Choiceplus investment of \$200 minimum.</li> </ul>	<p>A horizontal timeline with seven dark blue squares representing years. The seventh square is highlighted in yellow and labeled '7 years +'. The word 'Time' is centered below the squares.</p>	<p>A horizontal risk scale from 'Very low' to 'Very high'. A dark blue triangle points to the 'High' position.</p> <p>(Based on a diversified share portfolio, expected frequency of negative annual return would be in between 4 and 6 out of every 20 years)</p>
Exchange Traded Funds (ETFs)		Dependent on the actual ETFs members choose to invest in	<p>A horizontal risk scale from 'Very low' to 'Very high'. A dark blue triangle points to the 'High' position.</p> <p>(Note: It is dependent on the actual composition of ETFs members choose to invest in)</p>
Listed Investment Companies (LICs)		Dependent on the actual LICs members choose to invest in	<p>A horizontal risk scale from 'Very low' to 'Very high'. A dark blue triangle points to the 'High' position.</p> <p>(Note: It is dependent on the actual composition of LICs members choose to invest in)</p>
Term Deposits		Member should be prepared to stay invested for the specific term of maturity to meet their objectives	<p>A horizontal risk scale from 'Very low' to 'Very high'. A light blue triangle points to the 'Very low' position.</p> <p>(Negative returns expected in less than 0.5 out of every 20 years)</p>

Investment option	Overall class of members designed for	Product key attributes	
		Investment horizon	Risk tolerance
<b>Pre-mixed options</b>			
Balanced (Default)	Members with a five years plus investment horizon in pursuit of an actively managed, highly diversified, pre-mixed investment option with access to growth and defensive assets.	 <p>5 years + Time</p>	 <p>Very low <b>Medium to high</b> Very high</p> <p>(Negative returns expected in between 3 to less than 4 out of every 20 years)</p>
Capital Stable	Members with a five years plus investment horizon in pursuit of the lowest risk, diversified, pre-mixed investment option. Capital Stable has been designed for members seeking a much lower allocation to growth assets such as equities (shares) and a much higher allocation to defensive assets such as fixed interest and cash, compared to the default Balanced option.	 <p>5 years + Time</p>	 <p>Very low <b>Low to medium</b> Very high</p> <p>(Negative returns expected in between 1 to less than 2 out of every 20 years)</p>
Conservative Balanced	Members with a five years plus investment horizon in pursuit of a diversified, pre-mixed investment option with lower risk compared to our default Balanced option. Conservative Balanced has been designed for members seeking a lower allocation to growth assets such as equities (shares) and a higher allocation to fixed interest and cash. It contains a similar proportion of growth and defensive assets.	 <p>5 years + Time</p>	 <p>Very low <b>Medium</b> Very high</p> <p>(Negative returns expected in between 2 to less than 3 out of every 20 years)</p>
Socially Responsible Investment (SRI) - Balanced	Members with a five years plus investment horizon in pursuit of a diversified, pre-mixed investment option with a socially responsible investment style. The SRI Balanced option has been designed for members specifically seeking to avoid exposure to fossil fuels, companies that breach human rights or labour rights, uncertified palm oil, tobacco and other particular industries, while investing in assets that contribute to sustainable outcomes. Compared to our default Balanced option, SRI Balanced has a similar split between assets with growth and defensive characteristics.	 <p>5 years + Time</p>	 <p>Very low <b>High</b> Very high</p> <p>(Negative returns expected in between 4 to less than 6 out of every 20 years)</p>
Indexed Balanced	Members with a five years plus investment horizon in pursuit of a passively managed, diversified, pre-mixed investment option. The Indexed Balanced option has been designed for members with a primary focus on minimising fees and has the lowest Total Investment Cost of the Hostplus pre-mixed options. This option aims to track established market indices. Compared to our default Balanced option, Indexed Balanced does not invest in unlisted assets and instead has a higher allocation to listed equities, fixed interest, and cash.	 <p>5 years + Time</p>	 <p>Very low <b>High</b> Very high</p> <p>(Negative returns expected in between 4 to less than 6 out of every 20 years)</p>

Investment option	Overall class of members designed for	Product key attributes	
		Investment horizon	Risk tolerance
<b>Pre-mixed options</b>			
Shares Plus	Members with a five years plus investment horizon in pursuit of a diversified, pre-mixed investment option. Compared to our default Balanced option, Shares Plus has been designed for members seeking a higher allocation to growth assets, being listed equities (shares) and a lower allocation to assets with defensive characteristics, such as fixed interest and cash. It has the highest exposure to growth assets and is therefore the least risk averse of our pre-mixed investment options.		<p>Very low <span style="float: right;">High Very high</span></p> <p>(Negative returns expected in between 4 to less than 6 out of every 20 years)</p>
Hostplus Life	Members with a five years plus investment horizon in pursuit of a lifecycle option which automatically transitions them from higher-risk options to lower-risk options as they transition through their career and approach retirement. Throughout members' younger years, the superannuation is focused on long-term capital growth, with a higher investment in assets such as listed equities and property. As the members' move closer to retirement, their superannuation will be focused more on providing a steady income and preserving capital.		<p>Very low Low Medium Very high</p> <p>High to Low (dependent on the members' age bracket and allocated investment option)</p>
<b>Other investment options</b>			
Cash <sup>1</sup>	Members with two years plus investment horizon in pursuit of exposure to short-term money market securities, bank deposits and other similar investments. This option aims to deliver stable returns over a market cycle.		<p>Very low Very high</p> <p>(Negative returns expected in less than 0.5 out of every 20 years)</p>
Diversified Fixed Interest	Members with a two years plus investment horizon in pursuit of exposure to a portfolio of Australian and international government bonds and other investment grade debt. This option aims to provide capital stability and a return above cash over a market cycle.		<p>Very low Medium to high Very high</p> <p>(Negative returns expected in between 3 to less than 4 out of every 20 years)</p>
Diversified Fixed Interest – Indexed	Members with a two years plus investment horizon in pursuit of exposure to a portfolio of Australian and international government bonds and other investment grade debt. This option is designed for members with a primary focus on minimising fees. It uses an indexed-enhanced strategy base upon an established market index and then seeks to add modest value by exploiting market inefficiencies. This option aims to provide capital stability and a return above cash over a market cycle.		<p>Very low Medium to high Very high</p> <p>(Negative returns expected in between 3 to less than 4 out of every 20 years)</p>

1. The Cash option will be invested approximately 60% in deposits with Commonwealth Bank of Australia Limited and 40% in deposits with Members Equity Bank Limited.\*

Any remaining amounts of the Cash option will be invested in separate bank deposits, short-term money market investments or other similar investments.

\*Please note that maintaining a specific allocation requires regular rebalancing and the actual allocation may vary between rebalancing dates.

### 3. Distribution

The below table outlines Hostplus' permitted distribution channels and associated distribution conditions or restrictions for *Superannuation and Personal Super Plan*.

Distribution Channel	Permitted Channel	Distribution conditions/ restrictions
Direct channels through Hostplus	Yes	<ul style="list-style-type: none"><li>▪ This product can only be distributed to the target market specified in this document.</li><li>▪ This product can only be offered and/or issued in accordance with the relevant product terms and conditions outlined in the Product Disclosure Statement.</li></ul>
Through personal advice	Yes	
Through authorised representatives by general/intra-fund advice	Yes	
Rating and research agencies	Yes	

The distribution conditions outlined above will be reviewed if distribution channels change.

## 4. Review process

This target market determination will be reviewed annually with a maximum review period of 15 months between the reviews and with an initial review to be undertaken within 12 months of the effective date. There are a number of events which will trigger an out of cycle review. These review triggers are as follows:

- Receipt of a significant or unexpectedly high number of complaints from customers who have acquired this product, regarding the product design, features, availability and any distribution condition that would reasonably suggest that this TMD is no longer appropriate.
- Material changes, additions or removals of key product options and/or attributes such as liquidity, administration fees, investment objectives, strategic asset allocation or terms and conditions that would reasonably suggest that this TMD is no longer appropriate.
- The Target Market and product attributes described in this TMD is found to include materially incorrect or misleading information that reasonably suggests that this TMD is no longer appropriate.
- Material changes to distribution conditions of the product that would reasonably suggest that this TMD is no longer appropriate.
- Receipt of a Product Intervention Power order from ASIC requiring Hostplus to cease retail distribution of this product.
- Occurrence of a significant dealing(s) outside of the TMD that would reasonably suggest that this TMD is no longer appropriate.
- The trustee makes a determination for purposes of s52(9) of Superannuation Industry (Supervision) Act 1993 (Member Outcomes Assessment) that the financial interests of the customers who hold this product are unlikely to be met.
- Failure to meet the performance test benchmarks stipulated under the Your Future Your Super legislation (noting the performance test will not apply to the direct investment option (Choiceplus)).
- Material changes to the investment profile of members of cohorts that would reasonably suggest that this TMD is no longer appropriate.
- Material changes to the key attributes of the insurance product and / or premiums.
- Material changes in the claim loss ratio/s, claim decline rates and/or claim decline reasons.

Where a review trigger has occurred, the Trustee and all distributors must cease distribution conduct and any party (including the administrator) must cease giving a retail client a product disclosure statement as soon as is practicable and no later than 10 business days, unless the review occurs within that period of time and a new TMD is made or the relevant trigger event is resolved.

## 5. Distributor requirements

Hostplus regularly monitors the consistency of the distribution of its *Superannuation and Personal Super Plan* with the Target Market on a quarterly basis. In order to assist Hostplus with the identification of potential issues with the distribution of *Superannuation and Personal Super Plan* distributors are required to report the information to Hostplus as outlined below:

Reporting	Format	Provider	Frequency
