ACCESS OPPORTUNITY

Why Hostplus Self-Managed Invest?

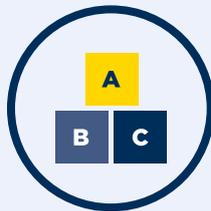

Hostplus Self-Managed Invest (SMI) makes it easy for your self-managed super fund (SMSF) clients to build strong and diversified portfolios that strive to deliver growth, income and a better future.

We're the first industry super fund to offer SMSF investors the flexibility of an SMSF while providing hard-to-access investment options.

With Hostplus SMI your clients can invest through their own SMSF with us. You choose what their super is invested in, giving you and your clients total control over how they build a portfolio.

Discover the benefits for your clients

Hostplus SMI allows you to build your clients' SMSF's portfolio with access to an array of listed and unlisted assets through one of Australia's leading industry super funds.

Greater diversification

to protect your clients' portfolios.

More opportunity

to build your clients' portfolio.

Investments that build

retirement income.

A unique alternative

to traditional defensive and growth investments.

Great features for your SMSF clients

Hostplus SMI makes it easy for you and your SMSF clients to build strong portfolios that strive to deliver growth, income and a better future.

Access assets typically unavailable to SMSF investors

Investment opportunities previously only available to Hostplus members, including access to:

Unlisted domestic and international property
(institutional grade)

Unlisted infrastructure

Private equity and venture capital

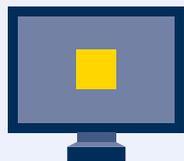

Multiple investment options to choose from

Giving your clients access to a wide range of some of our most popular assets and investment strategies. There are 10 investment options available, including our Balanced, Indexed Balanced, Infrastructure and Property options.

EXPERTISE THAT DELIVERS

Our investment philosophy

Our approach to investing is driven by our strong, diverse and proven investment beliefs.

Key principles that shape how we build portfolios

- 1** They should be well diversified to produce returns and reduce risk.
- 2** They should provide a healthy income stream from a range of sources to support returns, given our expectations for low capital growth across asset classes.
- 3** They should focus on active management, because in a low-return world, any additional returns that can be generated by actively selecting assets and managing risk will be highly valuable.
- 4** Each of our investment options follows its own distinct investment strategy and is designed to help your clients achieve a certain investment objective for the level of risk they prefer.

Read more about our portfolio construction on page 23.

Key ways we're different

- 1 We're long term:** Our predominantly young membership allows us to invest for the long term.
- 2 We have firepower:** Our large net cashflow gives us the firepower to quickly take advantage of investment opportunities.
- 3 We're well positioned:** Because of our long-term focus, we have a high tolerance for illiquid assets that perform, such as unlisted property, infrastructure and private equity.
- 4 We're diversified:** Our comprehensive diversification allows us to better control and mitigate risks.
- 5 We're resilient:** Our resilient investment strategy means we can quickly recover from adverse market events.
- 6 We're connected:** We outsource our investment management because it's in our investors' best financial interests to take advantage of the expertise and quality services available through our external investment managers and investment consultant, JANA.

INVESTMENT OPTIONS

Daily liquidity across our investment options

Our SMI investment options give you and your clients access to a wide range of assets and investment strategies. Importantly, each investment option offers daily liquidity and a low initial investment amount.² So your clients enjoy the comfort and flexibility to invest when and how they want – and the freedom to access funds when they need to.

Style of investment	Name of investment option
<p>Pre-mixed</p> <p>Focused on delivering the best net return for a given level of risk.</p> <p>These pre-mixed investment options take full advantage of Hostplus' investment expertise and feature our best investment ideas across listed and unlisted assets, bonds and cash.</p>	<p>Hostplus Balanced</p> <p>Hostplus Conservative Balanced</p> <p>Hostplus Capital Stable</p>
<p>Indexed (pre-mixed)</p> <p>Investment options that target assets in specific industries.</p>	<p>Hostplus Indexed Balanced</p>
<p>Socially Responsible Investment (SRI) (pre-mixed)</p> <p>Focused on values-based investing.</p> <p>This pre-mixed investment option seeks to reduce exposure to industry segments within fossil fuels and tobacco production, as well as other factors.</p>	<p>Hostplus Socially Responsible Investment (SRI) – Balanced</p>
<p>Single sector investment options</p> <p>Focused on investing in a single investment sector.</p> <p>The single sector investment options invest only in a specific asset class, such as International Shares – Emerging Markets or Australian Shares, and have varying investment styles.</p>	<p>Hostplus Australian Shares – Indexed</p> <p>Hostplus International Shares – Emerging Markets</p> <p>Hostplus Property*</p> <p>Hostplus Infrastructure*</p> <p>Hostplus Diversified Fixed Interest – Indexed</p>

2. Minimum initial investment of \$10,000. Minimum additional investment (per option) of \$5,000.* Please note that switching windows apply to the Property and Infrastructure options. See page 25 for more details. More information on each investment option can be found on pages 10-19.

SINGLE SECTOR OPTIONS

Hostplus International Shares – Emerging Markets

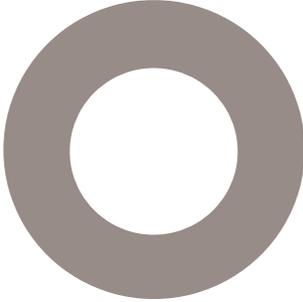

Overview

With all growth assets, this option is actively managed and provides exposure to listed international shares in emerging markets.

World-class investment managers

Our investments are managed by some of the world's largest and most experienced asset managers. For more information on our investment managers, please refer to page 23.

International Shares – Emerging Markets

Summary	The International Shares – Emerging Markets investment option is focused on delivering the best net return in a single sector from investing in a portfolio of all growth assets (typically companies listed on international securities exchanges in emerging markets only) and has medium diversification .											
Who is this investment suitable for?	With all growth assets, this single sector investment option is designed for investors with a medium to long-term investment time frame, who are seeking strong long-term returns (very strong long-term returns in Pension phase), have a high tolerance of negative returns and can accept the impacts of foreign currency movements .											
Investment objective	Accumulation: CPI plus 4.0% per annum on average over 20 years. Pension: CPI plus 5.0% per annum on average over 20 years.											
Level of investment risk	High. (Negative returns expected in between 4 to less than 6 out of every 20 years)											
Minimum suggested investment time frame	Accumulation: 5 years + Pension: 5 years +											
Growth/defensive allocation	100% growth / 0% defensive											
Investment mix and asset ranges	 <table border="1"> <thead> <tr> <th></th> <th>ASSET CLASS</th> <th>RANGE %</th> <th>TARGET</th> </tr> </thead> <tbody> <tr> <td rowspan="2">Listed equities</td> <td>International shares – Emerging markets</td> <td>90–100%</td> <td>100%</td> </tr> <tr> <td>Cash</td> <td>0–10%</td> <td>0%</td> </tr> </tbody> </table>		ASSET CLASS	RANGE %	TARGET	Listed equities	International shares – Emerging markets	90–100%	100%	Cash	0–10%	0%

RATED BY LONSEC

Lonsec is Australia's longest established superannuation research, ratings and consulting company. They undertake rigorous analysis on over 600+ superannuation products, covering more than \$1.7 trillion in superannuation savings. Their ratings reflect the ability of Hostplus to deliver value for money to members and investors encompassing investment performance, fees and member services.

Ratings definitions

Lonsec's rating system designates financial products under the categories of Highly Recommended, Recommended, Investment Grade, Fund Watch, Redeem and Screened Out.

These ratings reflect Lonsec's degree of conviction in the financial products' ability to generate risk-adjusted returns in line with relevant objectives.

The rating issued 05/2024 Hostplus Balanced option, Hostplus Indexed Balanced option, Hostplus Capital Stable option, Hostplus Conservative Balanced option, Hostplus SRI Balanced option, Hostplus Property option and Hostplus Infrastructure option are published by Lonsec Research Pty Ltd ABN 11 151 658 561 AFSL 421 445 (Lonsec). Ratings are general advice only, and have been prepared without taking account of your objectives, financial situation or needs. Consider your personal circumstances, read the product disclosure statement and seek independent financial advice before investing. The ratings are not a recommendation to purchase, sell or hold any product. Past performance information is not indicative of future performance. Ratings are subject to change without notice and Lonsec assumes no obligation to update. Lonsec uses objective criteria and receives a fee from the Fund Manager. Visit lonsec.com.au for ratings information and to access the full report. © 2024 Lonsec. All rights reserved.

HOSTPLUS SMI**

More information for advisers

HOW HOSTPLUS SMI WORKS

A general overview

Hostplus SMI invests through Hostplus' Pooled Superannuation Trust structure, so your clients' money is pooled with over one million other Hostplus members and investors.

Each investment option is divided into units, which are allocated based on the value of your client's investment and the relevant unit price.

- Hostplus SMI is a tax-paid investment vehicle. This means the declared unit price for each investment option includes a provision for tax owing on any investment income and capital gains, as well as entitlements to tax credits (i.e. imputation credits).
- You can choose to buy units in either the accumulation or pension (retirement) phase, for each investment option. This will ensure the right tax treatment is applied, as units in each phase are taxed at a different rate.
- All investment income is reinvested back into your client's account, rather than being distributed.
- Our online portal provides regular portfolio information and reporting at the touch of a button.

You can find more information on managing liquidity, valuations, redemptions and switching on page 24 & page 25.

Product details

Minimum initial investment	\$10,000
Minimum additional investment (per option)	\$5,000
Minimum ongoing account balance amount³	\$10,000
Minimum switch amount (per option)⁴	\$5,000
Minimum redemption amount (per option)⁴	\$5,000

Maximum investment

Unlimited. The Trustee reserves the right to decline any application and additional investments at its absolute discretion.

Unit pricing

Calculated each national business day (T) and made available at hostplus.com.au/smsfs/pricing-performance at midday T+2 on every national business day.

Product fees

Joining fee:

\$240 deducted from your initial application amount.

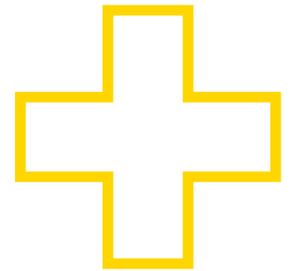

Administration fee:

\$165 p.a.

Investment fee:

Refer to the Hostplus Self-Managed (SMI) Product Disclosure Statement.

For full details of the fees and costs, including definitions of each fee and cost, please refer to the Hostplus Self-Managed Invest (SMI) Product Disclosure Statement (PDS) and the Additional Information Brochure available at hostplus.com.au/smsfs. 3. Subject to market movement. When investor's balance falls below \$2,000, a request may be made by the Trustee to top up or withdraw the balance in full. 4. Switches and withdrawals may be accepted below the minimum limit where the balance of an option has fallen below that minimum limit due to market movement.

Building our portfolios

We understand how important it is to keep your clients' financial goals on track – leading up to and right through retirement. Here are the nuts and bolts of how we deliver.

Portfolio construction with JANA

Our team works closely with our investment consultant, JANA, to create the Hostplus SMI portfolios. We'll consider the following when we're creating each option:

- The amount we allocate to each asset class, country or sector
- Investment managers
- How much each investment manager is allocated
- Which assets we will co-invest in directly
- The level of investment risk for each asset, investment manager or asset class.

World-class investment managers

We outsource our investment management because it's in investors' best financial interests to benefit from the expertise available through our external investment managers and investment consultant, JANA.

We have strict guidelines for selecting managers for our portfolios, including:

- Investment managers must always align with our core investment philosophy
- Their costs must be reasonable
- They must deliver competitive performance
- They're subject to regular monitoring and performance review against specific objectives.

We will remove an investment manager due to poor investment performance, a change in key personnel, a change in a manager's style or if they no longer align with Hostplus' SMI investment strategies.

Asset allocation for Hostplus SMI

- Each of the investment options follows its own distinct investment strategy, including how much it allocates to each asset class, country or sector.
- We decide where to invest each option's assets based on in-depth analysis and research.
- We regularly review asset allocation settings in line with our economic outlook.

Investment governance

For more information on Hostplus' investment governance, please visit hostplus.com.au/about-us/company-overview/investment-governance.

Managing risk and liquidity

Hostplus is a highly liquid fund, giving investors confidence they can access their money when they need to.

The size and distinctive character of Hostplus lets us offer daily liquidity for each of the Hostplus SMI investment options, even though some of the underlying assets are 'illiquid', or not easily accessible.

We actively monitor risks across our investments, including market risks, interest rate risks, liquidity risks, derivative risks and operational risks.

We work with our investment consultant and risk team to analyse these risks and position our portfolios to limit them where possible.

Each investment option has different risk characteristics and volatility, and is thoroughly 'stress tested' every year under a range of market-driven actual and hypothetical scenarios.

We use the Standard Risk Measure to help investors compare investment options. This measure estimates the number of negative investment returns over a 20-year period and categorises each investment option on a scale from very low risk to very high risk.

Investors should still make sure they're comfortable with the risks and potential losses associated with their chosen investment option.

Redemptions and switching

The minimum investment withdrawal or switch is \$5,000 per investment option, subject to the ongoing balance requirement of \$5,000 per option.

No switching fee applies to any of the Hostplus SMI investment options.

Switching windows for Property and Infrastructure investment options

Switching "windows" for the Property and Infrastructure options. Any switches into and out of the Property and/or Infrastructure options need to occur during a pre-determined switching period ("window") each quarter. The quarterly switching windows will open on the second Monday of the second month of each calendar quarter. You can find the exact dates of these windows for the 2024-25 financial year in the table below. The switching windows for future financial years will be published on our website.

It is important to note that SMI investors maintain the ability to make new or additional investments into, or withdrawals from, the SMI Property and SMI Infrastructure options at any time. These transactions are not subject to the switching windows.

The switching windows for the Property and Infrastructure options for the 2024-25 financial year are shown below:

Valuations

Hostplus SMI's assets are valued in line with our valuation policy. Under this framework:

- Listed equities are valued daily, while valuations for unlisted assets are conducted more frequently than annually (i.e. typically quarterly or semi-annually)
- All assets should be subject to independent valuation
- Where feasible, valuers will be rotated so that the same party does not value a particular asset over a period greater than three years in most circumstances.

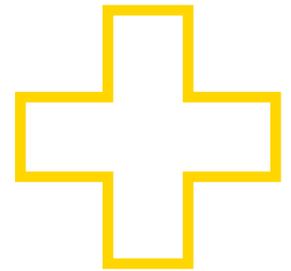

In valuing the assets for each Hostplus SMI investment option, we allow for the following factors: expense recoveries, investment costs, transaction costs, and income tax.

This valuation is then divided by the total units held in each option. Unit prices rise and fall with movements in the value of underlying assets. A copy of our valuation policy is available on our website at hostplus.com.au/members/our-products-and-services/investment-options#valuations-policy

GETTING STARTED

Completing your adviser self-registration

To begin, you will be required to complete an adviser self-registration.

This registration will allow you to manage client applications and, subject to client approval, their investments in SMI. It'll also allow you to provide delegated access to your support staff to assist you to manage your Hostplus SMI clients.

To complete the online adviser self-registration process you will need to provide the following information:

- Your business details including business name and ACN
- Your ASIC registered financial adviser number
- Your contact and identification details (driver licence or passport number).

Get started online at hostplus.com.au/advisers

- Complete an online registration.
- Complete the online identification requirements.

Access the offer documents for your clients

- Product Disclosure Statement.
- Additional Information Brochure.

Create client applications

- Once the online registration is complete you can begin creating client applications.

We're here to help.

Have a question or want to learn more about what we offer?
Contact us.

Call **1300 350 819** from 8am – 8pm
(AEST/AEDT) Monday to Friday

Visit:
